### **DETAILED ACTION**

This communication is in response to the amendment and remarks filed on 8/17/2007.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 – 16, 18 – 30, 32 – 39, 41 – 73, 77 – 79, 102 – 107 and 124 – 125, drawn to a directory system/process including a plurality of memory segments/DIT segments for storing directory data, classified in class 707, subclass 102.
- II. Claims 108 - 123, drawn to a directory process of monitoring and redistributing directory data in a plurality of memory segments, classified in class 707, subclass 200.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as a system including a plurality of memory segments/DIT segments for storing directory data. See MPEP § 806.05(d). Invention in Group II has separate utility such as a directory process of monitoring and redistributing directory data in a plurality of memory segments.

Art Unit: 2166

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

The response time for this Office Action is **one month (30 days)**.

Applicants are advised that the reply to this requirement to be complete and must include election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2166
